

_____.2022 - Sprint 24 released

This sprint included the tasks:

- 1) Sort buttons do not work in the Patients list
<https://jira.strikersoft.com/browse/CAREFLOW-3912>
- 2) SESAR error message should be saved and displayed
<https://jira.strikersoft.com/browse/CAREFLOW-3872>
When sending a incorrect SESAR report, error 400 is received (bad request), but response body with message string is not saved or shown.

Save error details
Display them when going back to SESAR form.
- 3) Clear answers on disabled questions
<https://jira.strikersoft.com/browse/CAREFLOW-1174>
If the previously occupied field (text input, date input, radio button(selected)) becomes inactive(disabled visually and with disabled cursor whilst hovered) due to jumpTo functionality, all the filled information is cleared (disappears).

After submitting the form by pressing the corresponding button, the created artefact afterwards, gets the correct data only from occupied fields from previous step.
- 4) NAR: remove "retest-nota" notification
<https://jira.strikersoft.com/browse/CAREFLOW-4043>
- 5) [SPAR] Switch to the scheme 2021.1
<https://jira.strikersoft.com/browse/CAREFLOW-3987>
Switch to the scheme 2021.1, as previous scheme will be deprecated on 1st of January 2023
2021.1 schema documentation:
<https://www.statenspersonadressregister.se/master/start/teknisk-info/xml-scheman/2021-1/>
