<https://jira.strikersoft.com/browse/CAREFLOW-4166>

## iOS ver 3 application (in production):

### Testing

[CAREFLOW-4048](#) SwipeCare working with new NetID Access 7.1+ and new card

## iOS ver 4 application (not yet released to clients):

### Improvements:

- [CAREFLOW-4123](#) Show doctor's name in medications list
- [CAREFLOW-4134](#) Error when no Internet connection. (Sending surveys)
- [CAREFLOW-3975](#) Resend survey
- [CAREFLOW-4134](#) Updating preparing error report
- [CAREFLOW-4127](#) Changelog creation for TestFlight

### Bugs (minor, just polishing):

- [CAREFLOW-4076](#) Cleaning patient list after changing backend
- [CAREFLOW-4133](#) Swipe Read, filters
- [CAREFLOW-4179](#) Crash after log in
- [CAREFLOW-4044](#) Add patient, field name (spar format should be "Lastname Firstname")
